

Camp Hawk

Just a quick drive southwest from Newton business districts, off of both U.S. Highway 50 and I-135, Camp Hawk partners recreation opportunities with spacious grounds to bring together friends and family.

Camp Hawk is the only Harvey County park to feature a disc golf course. The course winds throughout the park, providing a nature tour that includes

challenging throws around trees and the four-acre fishing pond. Fishing in the pond requires a state-issued fishing license.

The cabin-style shelter building at Camp Hawk can be rented for social gatherings. The facility can host around 100 people, and includes heating and air conditioning as well as a wood-burning fireplace, restrooms and a kitchen equipped with a stove, refrigerator and sink.

Camp Hawk visitors can also enjoy a playground, softball diamond and outdoor, lighted basketball court. RV campsites are limited, but do offer full hookups. There is plenty of room for primitive camping. Camping is subject to a fee. Daily and seasonal camping permits are available at the self-service booth located just south of the rental shelter. Seasonal camping permits are valid from April 1 to November 15.

Two rental cabins sit in the center of Camp Hawk, with an entire park serving as the front and back yards. The cabins provide walking-distance access to all attractions in the park.

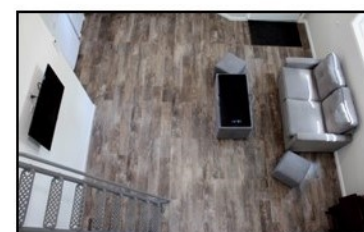

Inside, each cabin is furnished with comforting amenities to create a relaxing atmosphere while enjoying the sounds of the natural park environment. Each cabin comes with a living room, kitchen, bathroom with

shower, downstairs bedroom and additional bed space in an upstairs loft. Appliances include television, refrigerator, oven, microwave, cooking utensils, dinnerware and more.

Rocked driveways, including an RV pad, provide easy access to each cabin. A picnic table and fire pit allow for additional options to appreciate outdoor living.

East Park

Harvey County East Park offers 1,300 sprawling acres of family fun on the edge of the Flint Hills, 6 miles east of Newton.

A 314-acre lake blends its tree-lined shady shores with an abundance of space for fishing, swimming, boating and personal watercraft. The lake offers the angler a variety of

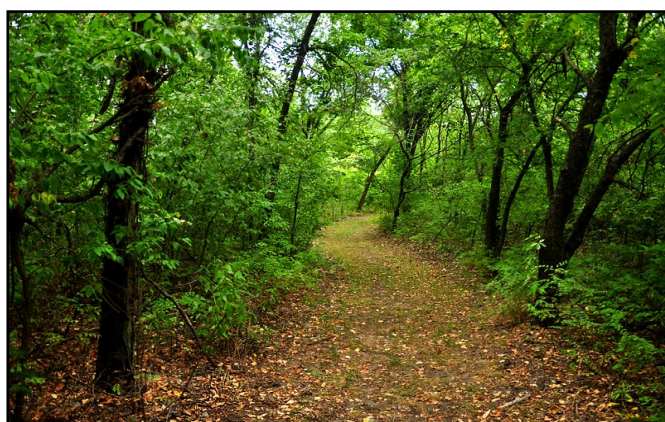

fishing options including channel cat, walleye, saugeye, white bass, largemouth bass and crappie.

Campgrounds surround all around the water,

with a variety of electric hookups and primitive sites. Playgrounds, a softball diamond and sand volleyball courts are all in close proximity to camping areas. Three restrooms – two of which are bathhouses – are available for patrons, one in each main camping area.

Boating opportunities on the lake include water skiing, pleasure boating, canoeing and kayaking, and of course, fishing. Due to the size of the lake, there is a designated ski route for pleasure boating and personal watercraft that must be followed by all vessels, regardless of size. Canoes and kayaks must remain in no-wake areas.

In addition, there are three swimming beaches, a climate-controlled shelter (Volunteer Hall) and several open air

shelters for rent, and a mix of trails perfect for walking, running, biking and horseback riding. The Osage Nature Trail is also the home of the Indigent Persons Memorial.

Visitors are welcome to come and enjoy the various trails, fishing opportunities, beaches and picnic areas at the park. All State of Kansas fishing license requirements and regulations are

enforced. Pleasure boating, horseback riding and camping are subject to fees. Daily or seasonal permits for these activities can be purchased at the self-service booths located throughout the park or at the park office. Seasonal permits are valid April 1 through November 15.

Park Rangers are available for assistance and to answer questions year-round. During the camping season Camp Hosts are available 24/7.

Contact us to inquire about hunting opportunities.

ADA compliant restrooms and hiking trails complement the disabled patrons' visit.

West Park

Harvey County West Park is located 13 miles west and four miles north of Newton and is the original Harvey County Park. It was developed in the late 1930s in the Sand Hills of western Harvey County on the Little Arkansas River.

Highlighted by wooded trails and the bends of the Little Arkansas River, the 310-acre park offers a 16-acre fishing lake with channel cat, largemouth bass and crappie. The Little Arkansas River offers good flathead and channel cat fishing, and is accessible to small boats and canoes. No gas motors are allowed on the lake. The West Park Bait Shop is open seasonally to help supply visitors.

Campers will find a variety of campsites with electricity as well as a number of primitive sites, both with access to restrooms and bathhouses.

Hiking, biking and horseback trails at West Park can take adventurers on paths with views of the lake, the river and through shaded, wooded areas. In addition, West Park also offers a softball diamond, playground equipment, outdoor volleyball court, swimming beach and enclosed and open air shelters for rent.

Visitors are welcome to come and enjoy the fishing opportunities, hiking trails, swim beach and picnic areas at the park. All State of Kansas fishing license requirements and regulations are enforced.

Horseback riding and camping are subject to fees. Daily or Seasonal permits for these activities can be purchased through the bait shop or self-service booth. Seasonal permits are valid from April 1 to November 15.

Park Rangers are available for assistance and to answer questions year-round. During the camping season Camp Hosts are available 24/7.

ADA compliant restrooms complement the disabled patrons' visit.
